

# 7 Times Table

## The 7 Times Table

$$\begin{aligned}1 \times 7 &= 7 \\2 \times 7 &= 14 \\3 \times 7 &= 21 \\4 \times 7 &= 28 \\5 \times 7 &= 35 \\6 \times 7 &= 42 \\7 \times 7 &= 49 \\8 \times 7 &= 56 \\9 \times 7 &= 63 \\10 \times 7 &= 70 \\11 \times 7 &= 77 \\12 \times 7 &= 84\end{aligned}$$

7	4	1
8	5	2
9	6	3

### 7 Times Table Trick – Units

Draw a grid, as for noughts & crosses (tic-tac-toe).

Starting at the top right hand corner, write the **units** 1-3 from top to bottom, then continue in the other columns.

7	14	21
28	35	42
49	56	63

### 7 Times Table Trick – Tens

Write the **tens**, moving from left to right.

Miss the first column.

Start each new row with the same number used at the end of the last row.

If you find the seven times table hard, reverse the sum and use the other tables already learnt.

Instead of working out **5 x 7** in for the seven times table, use **7 x 5** from the five times table.
